

3-IN-1 FOLDABLE WIRELESS CHARGING STAND WITH Qi2 25W

SKU: ST-Q25F31C-EA

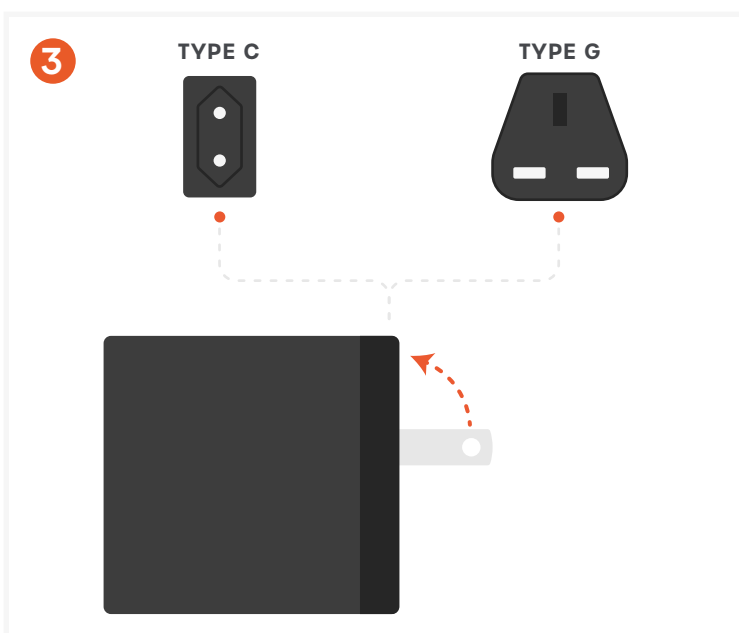

Unfold the Charging Stand

- Unfold the stand into the upright position.
- The foldable design allows compact storage for travel or home use.

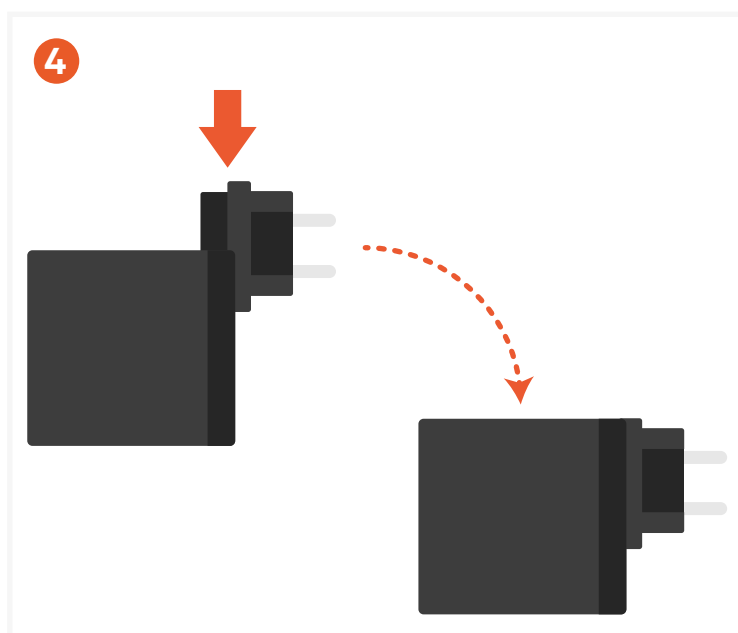

Connect the USB-C Cable to the Power Adapter

- Connect the included USB-C cable to the 45W USB-C Power Delivery adapter.
- The Type A plug is installed by default.

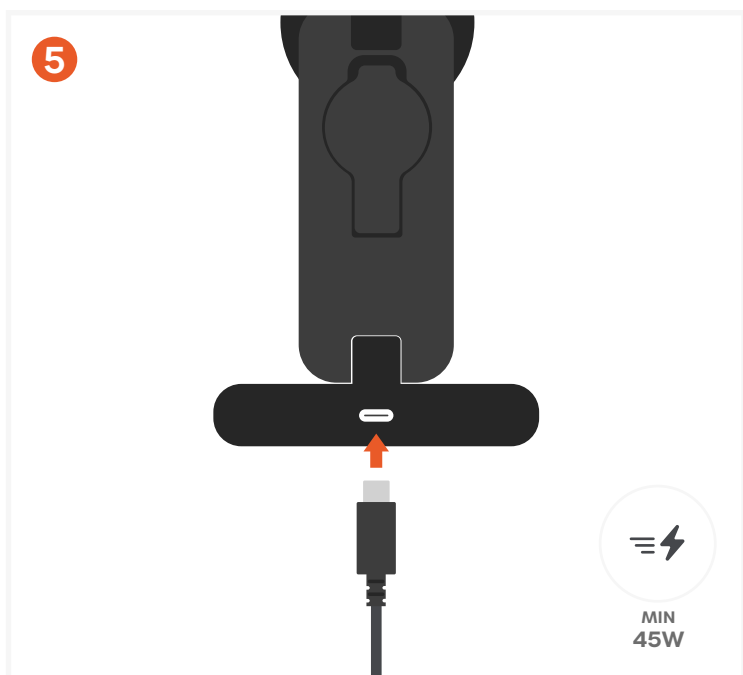

Install an International Adapter If Needed

- Fold the default plug so the outlet prongs face upward.
- Align the international adapter with the default plug housing.
- Includes adapters: Type C and Type G.

Secure the International Adapter in Place

- Press the international adapter firmly until it snaps into place and sits flush with the top of the power adapter.
- To remove it, push upward until the adapter releases.

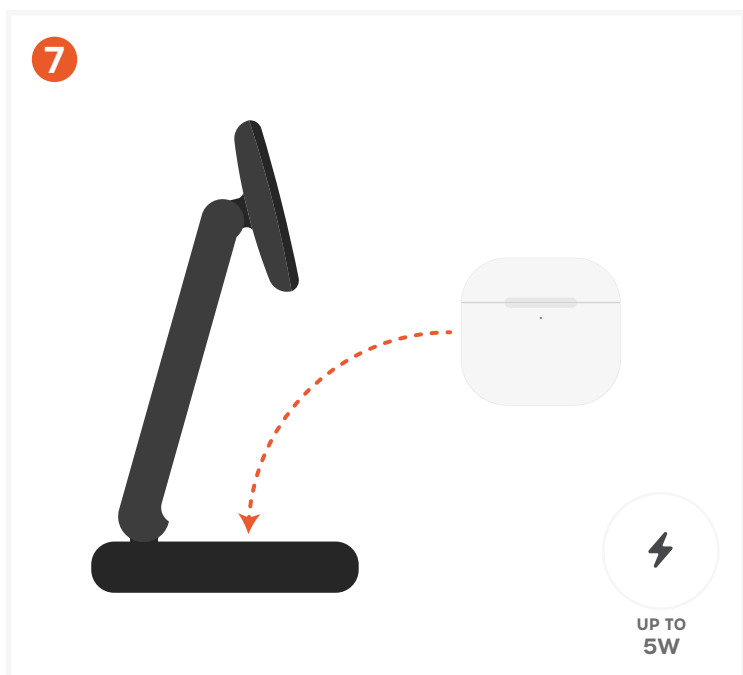

Plug the Stand into Power

- Connect the included 1M USB-C cable to the rear USB-C input port.
- Input requirement: 45W USB-C PD.

Charge Your Phone (Qi2 25W)

- Place a compatible smartphone on the magnetic Qi2 25W charging surface. Magnetic alignment supports secure placement and portrait or landscape viewing.
- Supports wireless charging output up to 25W (MPP/BPP).

Charge Your AirPods (5W Wireless Pad)

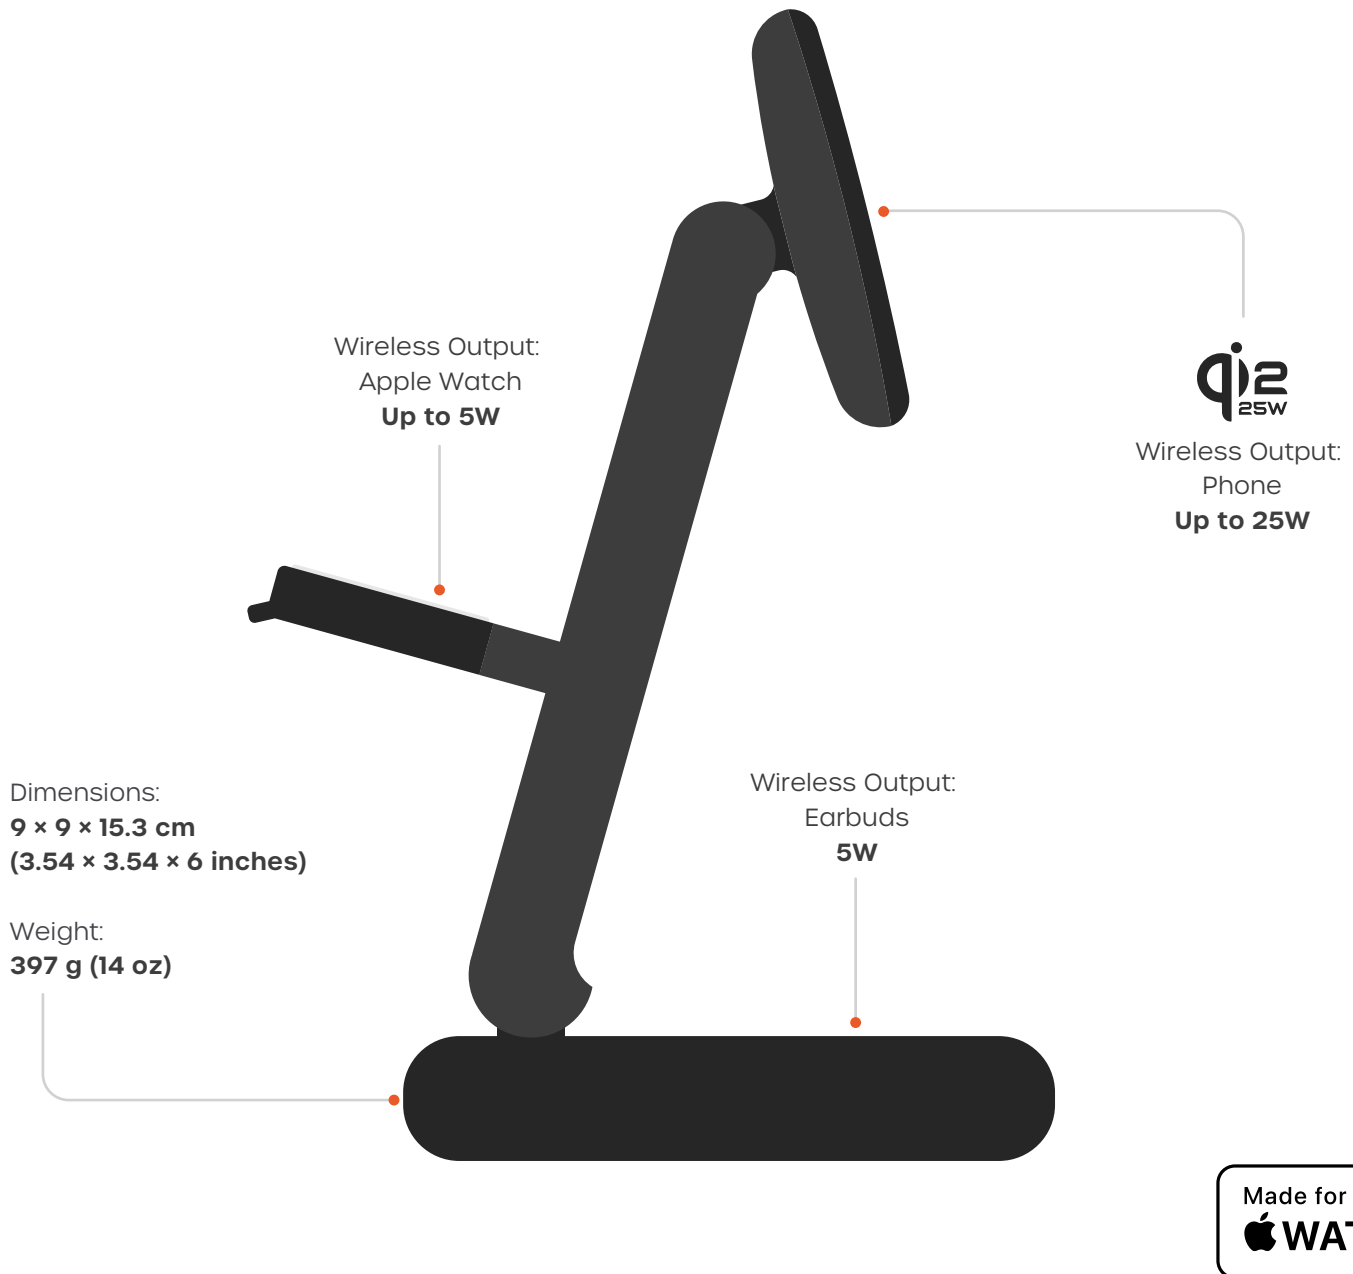

- Place AirPods or Qi-compatible earbuds on the base charging pad.
- Output: up to 5W.

Charge Your Apple Watch (Up to 5W Fast Charging)

- Fold down the Apple Watch charging module and place your watch on the charger.
- Output: up to 5W.
- Fast charging supported on Apple Watch Series 7 & later and Apple Watch SE (3rd Gen).
