Functions

Keyboard Screen

On your Apple device, the BT MediaRemote may be recognized as an independent keyboard causing the normal Apple keyboard screen to not appear. If this is the case, press the Keyboard button on the remote to activate the keyboard screen. Once the remote is powered off, the keyboard screen will automatically appear on your device.

Camera Shutter Remote Click

The volume up button on your iPhone, iPad, or iPod Touch equipped with iOS 5.0 or later functions as the camera shutter when using the camera app: the volume up button on the remote can trigger the same function as well.

BT Media Remote allows you to control various functions of your device with the latest Bluetooth[®] technology.

Multimedia Control Control the playback of your music and video. Compatibility: iPhone 45/4/368, iPad 2/1, iPod Touch 4G/3G/2G, MacBook Pro/Air, Mac Mini, and all other Bluetooth enabled Apole products.

Remote Camera Shutter Take photos without leaving yourself out and eliminate any camera instability.

Compatibility: iPhone 4S/4/3GS, iPad 2, iPod Touch 40 MacBook Pro/Air.

Siri Activation The remote's Home button can be used to activate Siri.

Compatibility: iPhone 4S
