TYPE-C USB IS HERE!

Thanks for purchasing the Satechi Type-C Aluminum HDD / SSD Enclosure. We hope you enjoy the convenience of external storage for your HDD or SSD combined with the ease of access offered by USB 3.1 Type-C. Use the Enclosure to house your drive; the included cable lets you manage your data easily from any Type-C port on your computer or laptop.

SETUP

Screws

Use the included screwdriver to unscrew the bottom screws. Make sure you don't lose them!

Slide out the internal sled, then plug your drive in with the SATA port. Then just replace the sled and screws!

USER OPERATION:

Connect the attached Type-C USB cable to your computer's Type-C USB port.

 FCC

This device complies with part 15 of the FCC results. Operation is subject to the following two conditions:  
1. This device may not cause harmful interference and  
2. This device must accept any interference received, including interference that may cause undesired operation.

**Note:** This Equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
**1.1.** Reorient or relocate the receiving antenna  
**1.2.** Increase the separation between the equipment and receiver  
**1.3.** Connect the equipment into and outlet on a circuit different from that to which the receiver is connected  
**1.4.** Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the manufacturer could void the user's authority operate the equipment.
