

# SLIM LX3 WIRED KEYBOARD

SKU: ST-KULX3S-EN / ST-KULX3C-EN

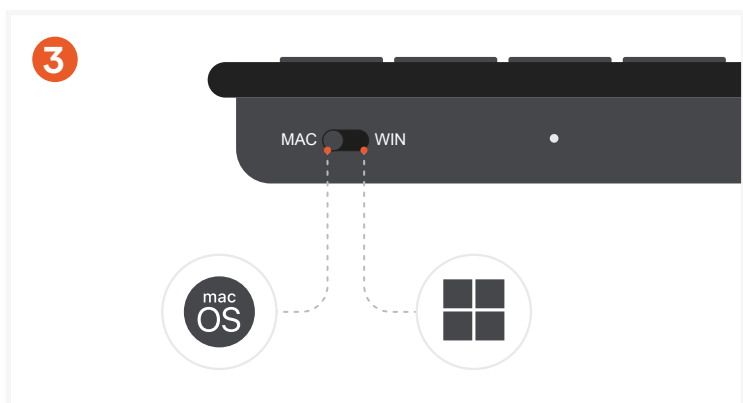

## Connect Keyboard

- Plug the keyboard's USB-C connector into your device.
- For USB-A devices, use the included USB-C to USB-A adapter.
- The keyboard will automatically power on once connected.

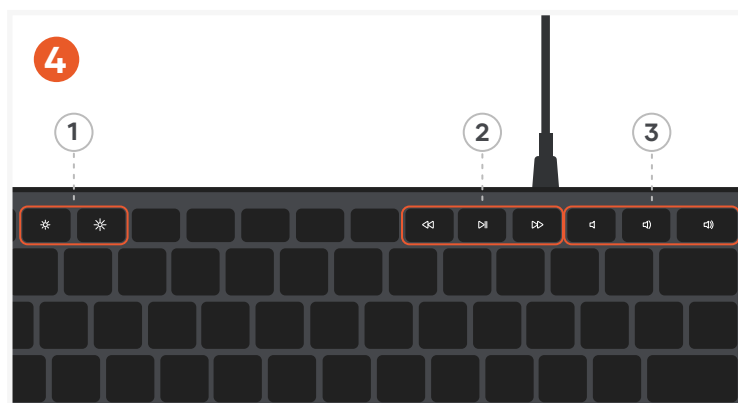

## Plug & Play Setup

- No pairing or drivers are required.
- The keyboard will be ready to use immediately after connecting.

## Select Operating System

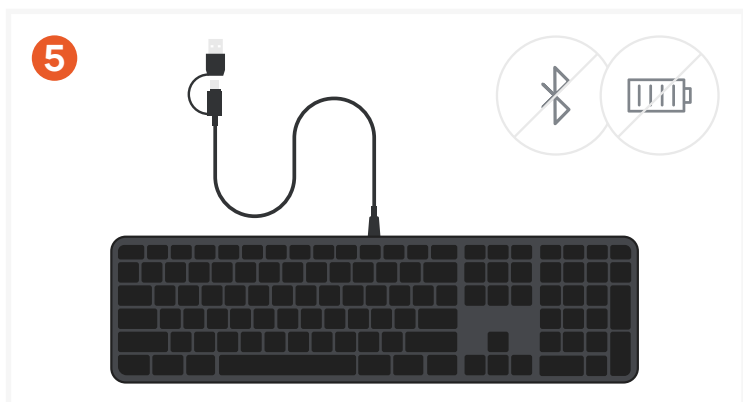

- Use the OS switch to select your device's operating system.
- This ensures proper function key and shortcut mapping.

## Using Function Keys

Use the function row for system controls such as:

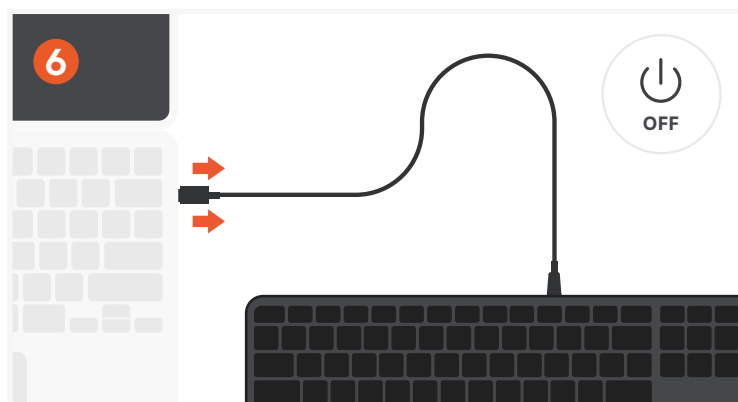

- 1 - Brightness adjustment
- 2 - Media playback (play/pause, skip)
- 3 - Volume control

## Wired Connection Mode

The Slim LX3 Wired Keyboard operates exclusively through a wired USB connection.

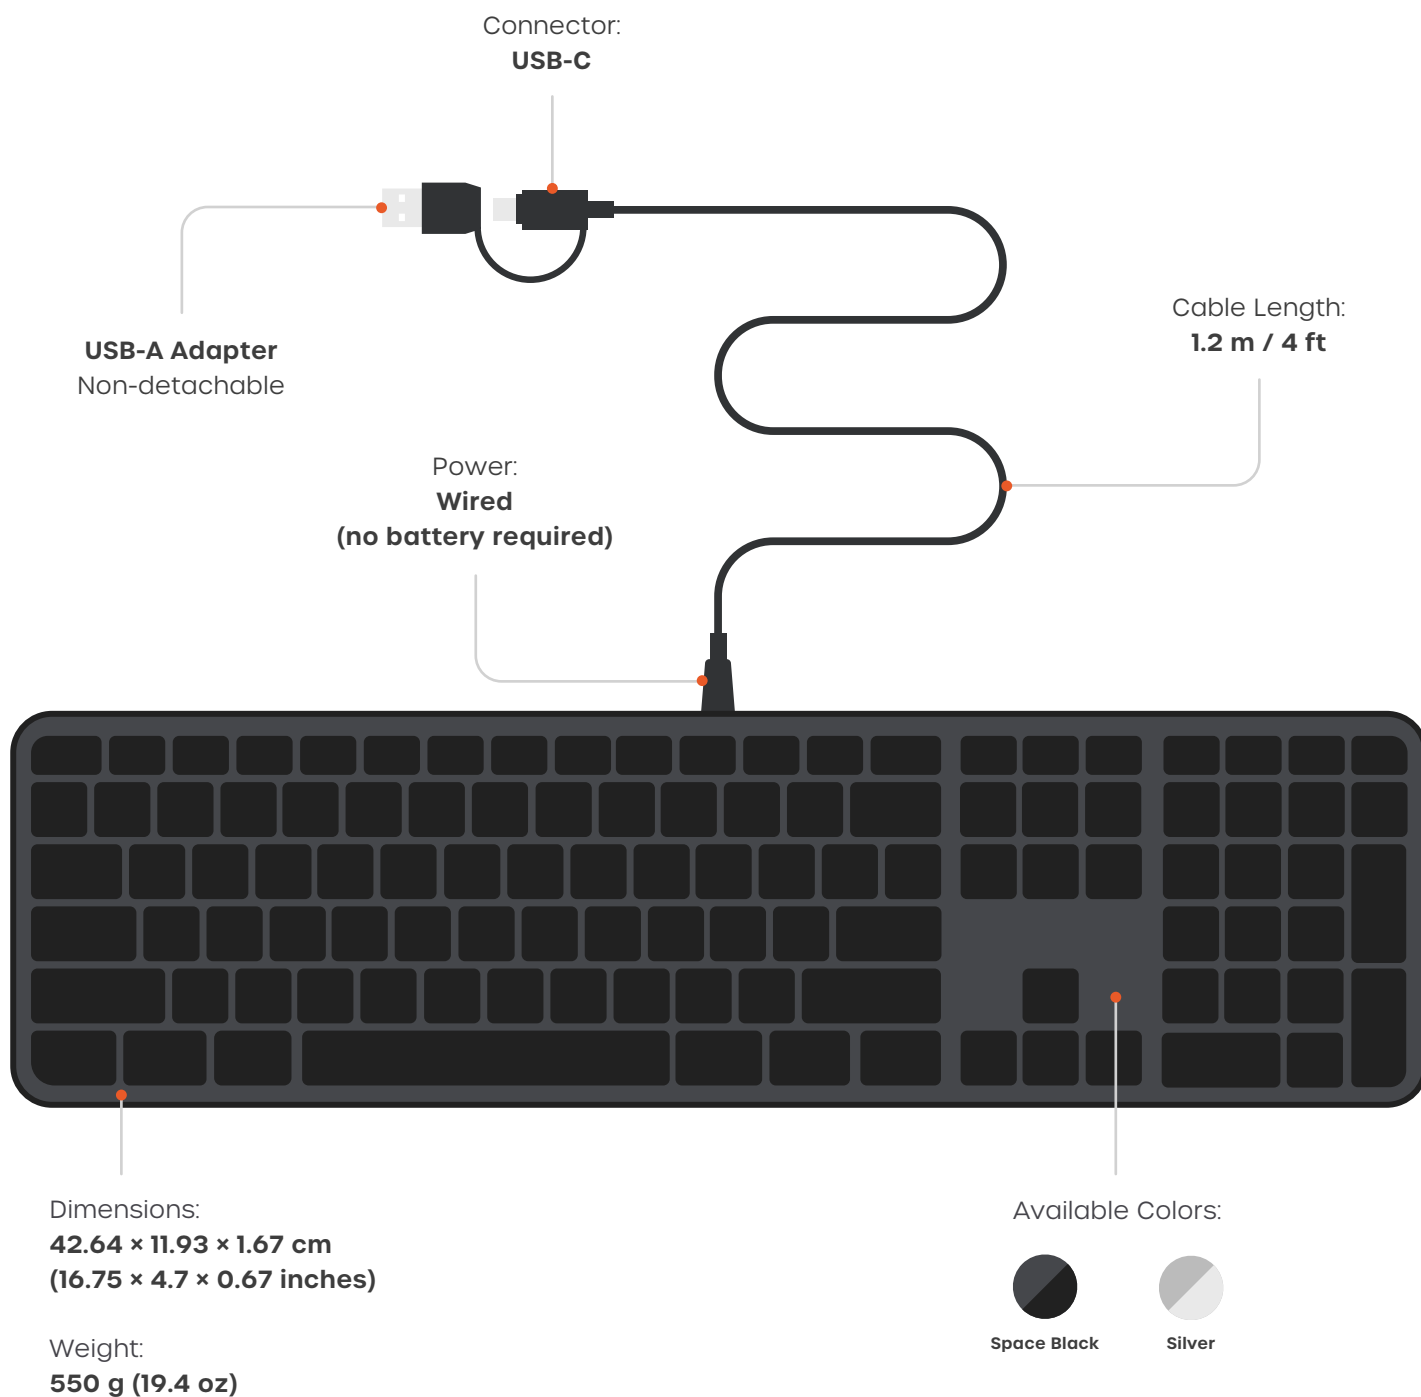

- Provides a stable, uninterrupted connection
- No Bluetooth pairing required
- No battery or charging needed

## Sleep Mode / Power

- The keyboard remains active while connected.
- No sleep mode or power switch is required.
- To turn off the keyboard, simply disconnect the USB cable.

# SPECIFICATIONS
