

QUICK GUIDE

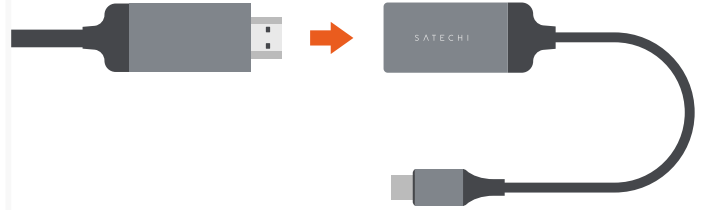

USB-C TO HDMI 2.1 8K ADAPTER

1

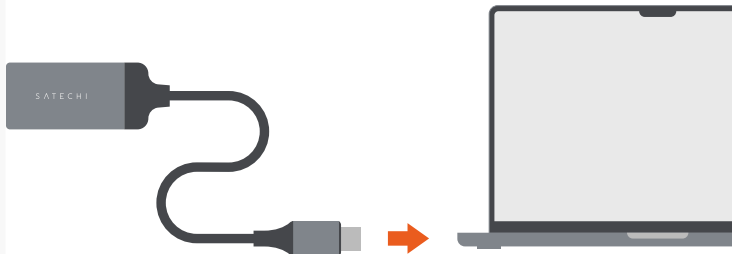

Plug one connector of an HDMI cable (*not included*) into a HDMI-equipped external display, monitor or television.
HDMI 2.1 cable recommended for optimal functionality

2

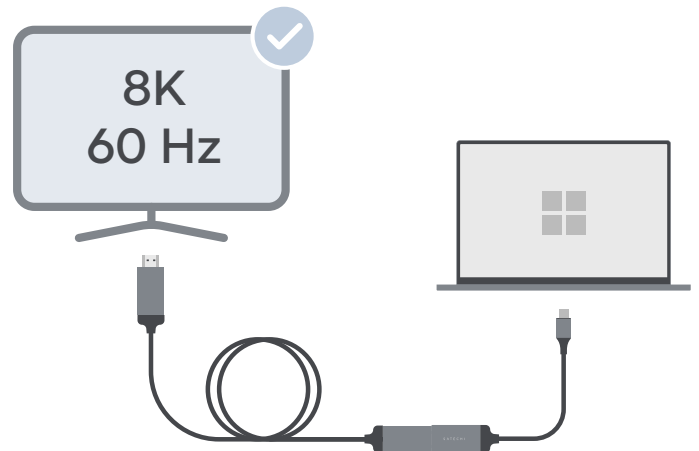

Connect second connector of an HDMI cable to the Adapter.
The Adapter is backwards compatible with HDMI 1.4 and up

3

Connect USB-C to HDMI 2.1 8K Adapter to your compatible host device.
USB-C device must support DisplayPort over USB-C connection

4

Adapter provides stable connection in resolutions up to 7680 x 4320 (8K) @ 60Hz.

Attention:

- Compatible with Thunderbolt 3, Thunderbolt 4, USB4, and USB-C 3.2 Gen2 host devices
- 8K video resolution **not supported** on macOS, iPadOS, or iOS
- On 8K TVs, settings may need to be adjusted to achieve 8K video resolution. Please check your television user manual for guidance on how to enable 8K resolution.
