FAQS - EN

• What if I don't have a Type-C port, only Type-A?
A: You can always use a Type-A to Type-C adapter.

• Does the keyboard come with different color light options?
A: Unfortunately, the keyboard is only equipped with a white backlight. However, you are able to cycle through 3 different brightness options.

• Will this work on a Windows computer or with my Surface tablet?
A: The keyboard will be compatible with your Windows device. Please be advised that the Hotkey labels were designed for Apple, so they may not correspond with your Windows device.

FAQS - FR

• Que faire si je n'ai pas de port Type-C, seulement un Type-A ?
R : Vous pouvez toujours utiliser un adaptateur Type-A vers Type-C.

• Le clavier propose-t-il différentes options de couleur pour le rétroéclairage ?
R : Malheureusement, le clavier est uniquement équipé d'un rétroéclairage blanc. Cependant, vous pouvez choisir entre 3 niveaux de luminosité différents.

• Ce clavier fonctionnera-t-il sur un ordinateur Windows ou une tablette Surface ?
R : Le clavier est compatible avec votre appareil Windows. Veuillez noter que les étiquettes des touches rapides sont conçues pour Apple, elles peuvent donc ne pas correspondre à votre appareil Windows.

FC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
