

USB-C MOBILE PRO HUB SD

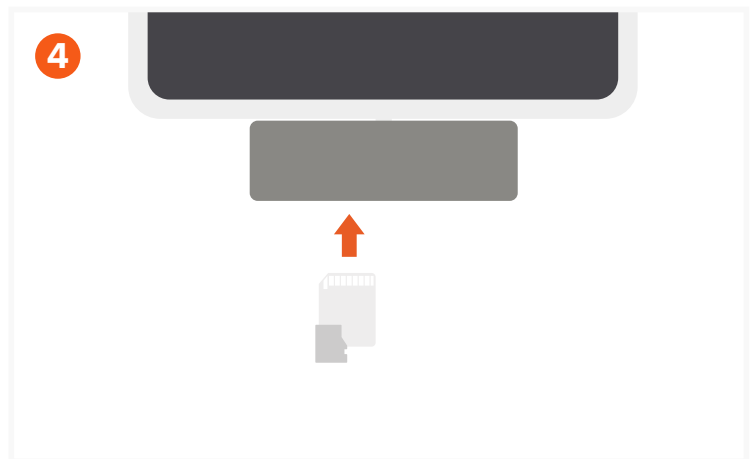

1 Plug the hub into the USB-C port on your iPad or USB-C host device (requires USB3.1 Gen 2 or higher). Use the included USB-C extension cable for a more stable connection or if using your tablet with a case.

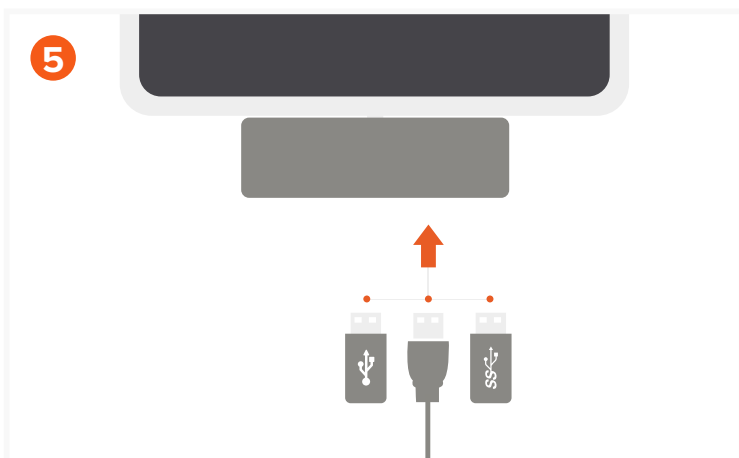

2 Connect a USB-C Charging cable to the USB-C PD port on the hub to charge your host device (60W Max). Recommended to connect a 30W Power Supply or higher to maintain charging speeds.

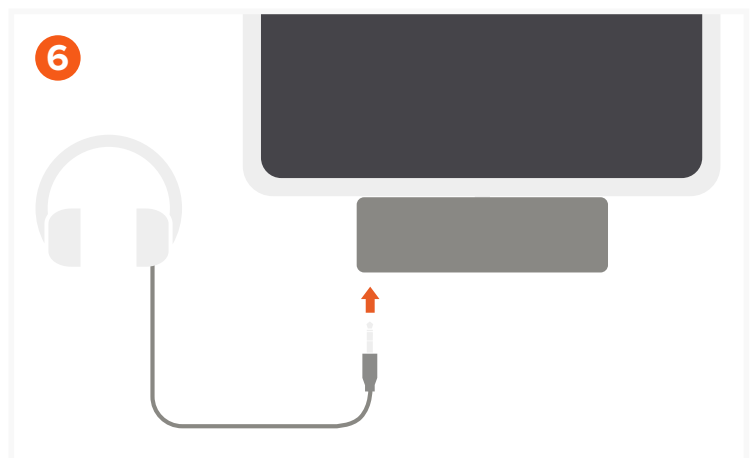

3 Connect an external display to the hubs HDMI port. Requires a direct HDMI to HDMI connection. Max resolution and refresh rate: 4K at 60Hz.

4 Insert microSD or SD Cards into card reader slots. Only microSD will click into place. Slots support UHS-I speeds. When using with iPadOS, cards will be discovered within the 'Files' app.

5 Connect USB peripherals to the USB 3.0 data port. Please update to iPadOS 13 or higher to utilize data transfer to/from external storage devices.

6 Use 3.5mm headphone jack port to connect wired headphones or headset.

NOTE

OPERATING TEMPERATURE IS BETWEEN 86 - 122°F
