

# INSTRUCTIONAL GUIDE

## SP400 SMART POINTER

**1** Insert batteries into the Remote

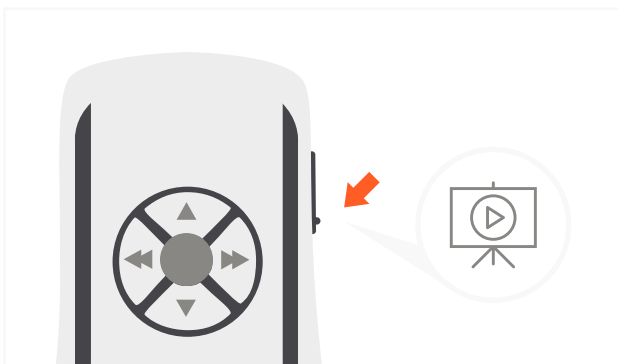

**2** Plug USB receiver into USB port directly on the computer

**3** While the LED light on the receiver is blinking, press and hold any button (except the laser button) on the remote for 3-4 seconds, to allow the remote to communicate with the receiver. The LED light will turn off

**4** Slide mode switch to P.T. to control PowerPoint and Keynote

**5** Slide mode switch to mouse mode to control computer mouse cursor
