On / Off & Rechargeable Battery

To turn the remote on or off, press and hold the button on the bottom of the remote for ~3 seconds. The charge indicator will blink blue once.

The Bluetooth Aluminum Presenter is equipped with a rechargeable battery. Plug the included charging cable into the Presenter's Micro USB port, then plug the other end of the cable into a computer or USB wall adapter to charge.

Functions

Pairing Mode

To put the Presenter in Pairing Mode, press and hold the "Next slide" and "Prev. slide" buttons for ~3 seconds, then release. The indicator will blink blue.

Pairing: Windows

First, put the Presenter in Pairing Mode. Then, on your Windows device, go to your device settings.

Select "Devices" in the settings menu, then select "Bluetooth" from the sidebar.

Make sure Bluetooth is turned on. Find "ST-APA" in the list, then click to pair.

Pairing: Mac

First, put the Presenter in Pairing Mode. Then, on your Mac, open your System Preferences.

Select "Bluetooth," and ensure Bluetooth is turned on.

Find "ST-APA" in the list, then click to pair.

Pairing: iOS

First, put the Presenter in Pairing Mode. Then, on your iOS device, open Settings.

Select "Bluetooth," and ensure Bluetooth is turned on.

Find "ST-APA" in the list, then click to pair.

FCC ID :

This device complies with part 15 of the FCC results. Operation is subject to the following two conditions:
1. This device may not cause harmful interference and
2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1.1. Reorient or relocate the receiving antenna
- 1.2. Increase the separation between the equipment and receiver
- 1.3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- 1.4. Consult the dealer or an experienced radio/TV technician for help

This device complies with FCC radiation exposure limits set forth for general population (uncontrolled exposure). This device must not be collocated or operating in conjunction with any other antenna or transmitter.

Changes or modifications not expressly approved by the manufacturer could void the user's authority operate the equipment.
